

- each entity is part of at least/most x relations
- describes number of relationships for each entity
- * means arbitrary many

Comparison to Chen-Notation

- (min,max)-Notation focus on relationships
- Chen-Notation focus on entities

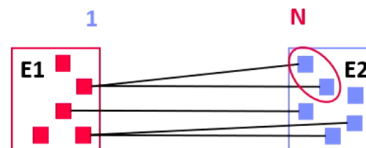

Understanding (min, max)-Notation

- **Focus on relationships!**
- Describes number of outgoing relationships for each entity

Understanding Chen- / Modified-Chen-Notation

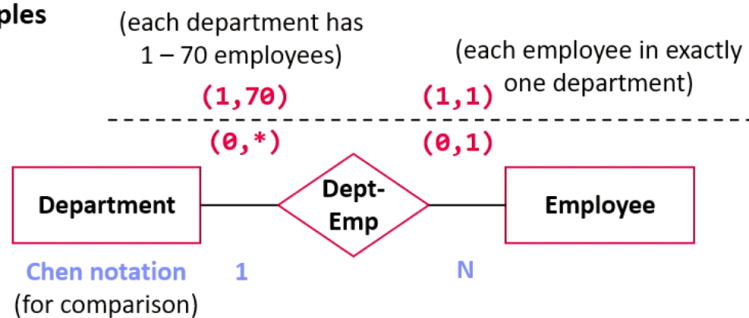

- **Focus on entities!**
- Describes number of target entities (over relationships) for each entity
